7. -These principles I am sanguine enough to believe rest on the moit understanding that the interests of Colony and mother country are always as much as possible indentical, and there is a desire of mutual support and reciprocity. When such feelings really do exist, no question will be decided on the more merits of an agreement or of accounts, but on the lines of utility,

expediency, and equity. 8.-The decision of the Secretary of State regarding the compensation for salaries of civil servants of the Colony-with which decision . entirely agreed-seems to me to be based on exactly the same lines of reasoning and justice. According to their contract the officials o.a. only claim certain salaries in dollars, and no more. But these contracts have turned out to be a mistake, and no more fair to both sides, and consequently other arrangements are made and the

contracts are ignored. 9.— The same state of things exists as regards this colony and the United Kaugdom in reference to the Military Contribution. The amount to be paid from time to time should depend on the whole of the circumstances - not what is agreed upou-but what is at each given time ognitable, reasonable, and fair to both parties.

10 .- I therefore stand ontside altogether of the countroversy of the past; but I regret the bittorness it has created, and the ill-feelings toward the mother country and her statesmen it has nursed and which undoubtedly still exist. 11.-If my premises are nocepled, the only point to be determined would be now to arrive at the amount payable by the Colony on the basis but only allow us to pay as much as can be done without harm to our prosperity present and

The Council also extreme y regrets that there should have been as yet no material curteilment of the overgrown Civil and Military expenditure of the Empire about which a representation was submitted in Murch last to the Government of India in order to meet this effective deticit. CALCUTTA, 20th December.

At to-day's meeting of the Imperial Legislative Council the Cotton Duties bill and the Bill amending the Tariff Act were referred to Select Committees consisting of Mr. Westland, Sir Alexander Miller, Mesars, Pritchard, Fazubbai Vishram, Gangadhor Ran, Madhara Chitnavis, Clogston and Playfair with instructions to rep rt at next meeting of Council UALCUITA, 20th December.

At the meeting of the Viceregal Legislative Connoil to-day, the Hop. Mr. Westland moved that the Bill to amend the Indian Tariff Act be referred to a Select Committee. There was a short debate confined principally to the nonofficial members. .

Sir Griffith Evans, while deprecating the propesal to impose an excise on Indian manufactures, Th. held that as the Secretary of State had given pledges in Parliament to the English manufacturers that there should be no import duty which they considered to be protective, the only result of rejecting the Bill would be veto on the part of the home authorities. The financial necessity of India was, he added, imperative and Tuthe wisest course would be to impose the import duty and submit to an excise.

not, however, oppose Mr Westland's motion.

The Hon. Baba Mohini Mohna Roy and the Hon. Fazerlbhai Vishram, who also spoke, adopted

the same attitude. Mr. Westland, in reply, referred at some length, to the position of the Government of India in its relations with the Scoretary of State, stating explicitly that "the measure was recommended by appealor order and orders which the Government of India was bound to obog ... The weather, sea smooth, Secretary of State, he sidded, " has held the scales fairly and equally between English interests on the one side and Indian interests on the other, and for this reason, and not because the Secretary of State had Inid upon the Government of India the oh gation to impose if he would recommend the measure to the council. The motion was adopted without opposition and the Council adjourned until Thursday next when the report of the Select Committee

will be submitted. COMMERCIAL INTELLIGENCE.

the Hon. Mr. Playfair strongly condemned the proposed excise while disclaiming any desire on the part of the commercial community to make the new import duty protective. For the reasons as given by Sir Griffith Evans he did not, however, oppose Mr Westland's motion.

The height of mean sea-level has been determined, from the tidal observations of 1887 and 1888, as 5.57 feet above zero of the tide-gauge at the Kowleon Tidal Observatory; and the Low-water Ordinary Spring-Tides, to which datum the beights in these Tables are referred, as 3.87 feet above zero.

The heights in the Tables marked with a minus right (—) are held below Low-water Ordinary Spring-Tides, and should be subtracted from the constants given above.
